Up

If you are wondering who will be presenting please go over the the speakers page and see. <https://www.microwaveupdate.org/Speakers>

If you name is on the list please make sure you send in a picture or we might start assigning random covert pictures of you that may not be very flattering. :-) Likewise a short bio would be appreciated.

If you are not on the list let us know and Barry VE4MA will pass on the names.

It's too early for most to commit to a particular topic but once people narrow down things we will start posting topics.

Dave
