Hotel Block expiring today.

Up

Hotel block expires tonight (August 2 2024) at midnight Pacific time.

After that calling the hotel is your only option if you want to stay at the event hotel. Let them know you are with the Weak Signal Microwave event and hopefully you will get a room and a reduced price. There is another event at the hotel (but not at the conference centre) that we are competing with for rooms.

We will be investigating a backup hotel if there is interest.

If you are having issues drop us a note and we will do what we can.
