While posting email is nothing new, we all do it, we sometimes run into things we perhaps aren't expecting. Thank you for signing up to receive email messages from MUD, but please be aware the MUD website received 2 dozen of emails bounces from the list of subscribers. 3 replies indicated your account wasn't active anymore, while a majority indicated our email to you was blocked and the reply server said this...

"Your IP is black listed by Spamhaus.org"      {Did this computer just tell me to go have sex with myself?} ??

"To best protect our users from spam, we will ignore all incoming emails from you until the matter is resolved." {oh joy!}?

I have been called many things, but never SPAM. So if you were wondering why you aren't seeing emails from MUD, well, now you know the rest of the story. Good day!
